# New Architecture : Circle 2 Mobile App

## Detailed architecture of MENU

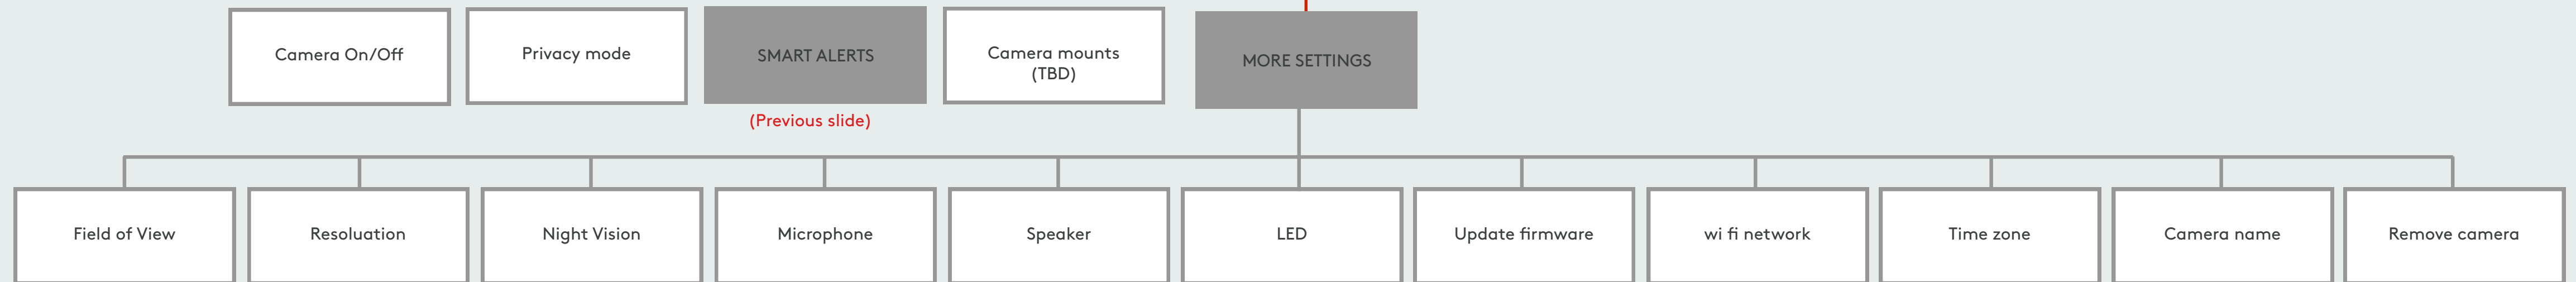

The menu has been completely re-architected to make extensible for a lot of new features

# New Architecture : Circle 2 Mobile App

Detailed architecture of MORE SETTINGS from menu

This section has been completely re-architected to make extensible for a lot of new features

## Summary

1. The whole app has been **rearchitected** to make it more **extensible**
2. Visual design overhaul
3. The **web app** has similar capabilities like mobile app with an **exception** of few - smart alerts, push to talk and an **addition**- full screen preview, mute due to platform capabilities.
4. Similarly the **TV app will not have certain functions** like screenshot, push to talk, share live, zone editor and menu due to platform restrictions

**THANK YOU**
